

Irrigation Authority

Supply, Delivery, Testing and Commissioning of a Hose Reel

Procurement Reference No: OAB/IA/HOSEREEL/54/23

Minutes of pre-bid meeting/site visit held on Friday 20th October 2023

Present:

S.N	Name	Designation	Company/Organisation
1	B. Seewoodharry (BS)	Operation and Maintenance Engineer	Irrigation Authority
2	M. Sawmy (MS)	Irrigation Operation Officer	Irrigation Authority
3	A. Ollibokus (AO)	Director	Meridian Supplies Ltd

1.0 Introduction

The meeting started at 10hr 30.

The Bidder present was welcomed at the Sub-Office of the Irrigation Authority at Plaine des Papayes.

The Bidder was briefed with regard to the existing irrigation project, whereby it was decided to make use of a hose reel on a pilot basis to provide for irrigation to the fields.

The Bidder was requested to go through the Bidding Document that is available on-line as from Tuesday 10 October 2023 on the Irrigation Authority Website <https://ia.govmu.org/ia>

The Bidder was requested to go to the relevant sections of the Bidding Document and to check if they meet all the required eligibility and qualification criteria.

The Bidder was then brought on site on lateral M₁B₂L₉ in order to acquaint himself of the prevailing situation on where and how the hose reel shall be used.

2.0 Schedule of Requirements

The Bidder was informed that he needs to refer to **Section V- Schedule of Requirements** of the Bidding Document and to carefully read through the Scope of works, Specifications, Inspection and Commissioning procedures and to accordingly quote for the goods as requested in the price schedule.

3.0 Transition pieces for connection to existing 8” hydrants and 6” solid set hydrants

The Bidder was informed to take good note of the existing 8-inch hydrants and the 6-inch solid set hydrants installed on site where the quick coupling flexible pipe to the hose reel shall be connected.

The Bidder was requested to supply the appropriate transition piece for connection of the hose reel to the existing 8" hydrants and 6" solid set hydrants accordingly.

The pre-bid meeting/site visit ended at around 12 hr 15.

*Pre-bid site visit conducted and minutes taken by **Mr B. SEEWOODHARRY** (Operation and Maintenance Engineer)*
