

Irrigation Authority

Desilting Works at Plaisance and St Felix Irrigation Projects Procurement Reference No: CSD/Desilt/23

Minutes of pre-bid site meeting/visit held on Friday 09 February 2024 at 10.45 hrs.

The following Bidder was present:

S.n	Bidder
1	Aqualia Ltd

1.0 Introduction

The Bidder was welcomed at the meeting point at around 10.30 hrs and he was taken on sites at the Regulating Weir and then at the Diversion Weir to the St Felix Irrigation Project.

After the visit at St Felix, the Bidder was then brought on site to visit the river, namely Riviere La Chaux to the Plaisance Irrigation Project.

2.0 Scope of works

The Bidder was briefed about the works that need to be done as per the Scope of Works under this Bidding Exercise.

The Bidder was requested to read carefully the Bidding Document and to take good note of all the requirements and to abide accordingly to all the conditions and safety measures.

The Bidder was informed that it is important to inspect the sites properly and to pay particular attention with regards to the earmarking of the locations and construction of the temporary access into the weirs and river by the proposed machinery.

3.0 Carting away of Silted materials and debris

The Bidder was informed that all silted materials and debris shall be responsibly carted away at legally authorized locations.

4.0 Re-instatement of access roads

The Bidder was informed that all temporary access roads which shall be constructed during execution of the works shall be properly re-instated after the works.

5.0 General Notes

The Bidder were informed that he can revisit the site again should the need arises prior to submission of their Bid.

The pre-bid site visit ended at around 14.30 hrs.
